PROFESSIONAL SUMMARY

I am a Computer Science Engineering student with a CGPA of 8.43, specializing in frontend development using React.js, Tailwind CSS, and modern JavaScript. Through internships and part-time work at Neonat health, I built real-time, API-integrated features for health-based applications and gained practical experience in UI/UX design, state management, and cloud deployment using Firebase. I also developed Terrabloom, a responsive, eco-friendly platform showcasing my skills in React, Vite, and CI/CD pipelines. With certifications from Google Cloud, IIT Bombay, and Hacker Rank, along with top rankings in college hackathons, I bring a strong foundation in coding, teamwork, and problem-solving. I'm now looking to apply these skills in a dynamic development role to build impactful, user-focused solutions.

EXPERIENCE

Frontend Developer (Full-Time)
Cognihive LLC | August 2025 – June 2026

- Developing and maintaining responsive web applications using React.js and Next.js
- Building frontend features and user interfaces for the Cognihive application
- Improving application performance and ensuring cross-browser compatibility
- Debugging and integrating reusable UI components with backend APIs
- Collaborating with designers, backend developers, and other stakeholders to deliver high-quality software

Junior React Developer intern
Neonat Health (sister company of Spark Infotech) | January 2025 – April 2025

- Developed and maintained the Neonat Health application using React.js, focusing on nutritional analysis and caloric calculations
- Built a nutritional calculator processing 500+ food items with real-time data
- Integrated 3+ REST APIs for accurate nutritional predictions (protein, carbohydrates, fats)
- Reduced page load time through component optimization and efficient state management
- Collaborated with cross-functional design and backend teams to deliver a seamless user experience
- Participated in code reviews and testing processes, contributing to overall codebase quality

SKILLS

Programming Languages:	HTML5, CSS, TailwindCSS, JavaScript, Php, Python, C, Java
Frameworks & Libraries:	React.js, Next.js, Vite, Bootstrap
Version Control & other Tools:	GitHub, WordPress, CI/CD, MySQL Workbench, VS Code
Cloud & Deployment	Firebase (CI/CD & Hosting /Firestore/ Authentication) AWS, Google Cloud
Course Work:	Database and management system, Software Development, Computer Networks, Operating Systems, Data Structures and Algorithms
Soft Skills:	Collaboration, Communication, Planning, Problem-Solving, Time Management, Creativity

EDUCATION

2021-2025	Bachelor of Engineering in Computer Science and Engineering at Shri S'ad Vidhya Mandal Institute of Technology (affiliated to GTU)	(CGPA: 8.43)
2021	Class 12th (Gujarat Board)	(64 PERCENTAGE)
2019	Class 10th (Gujarat Board)	(71 PERCENTAGE)

CERTIFICATIONS

- Google Cloud Skills Boost Badges
- Ask Questions to Make Data-Driven Decisions
- Foundations: Data, Data, everywhere
- C++ Advance IIT Bombay.
- Hacker Rank SQL (Basic)
- Hacker Rank CSS (Basic)
- completed GCCP (Google Career Practitioners Program 2022)

PROJECTS

Terrabloom -Sustainable Living Platform Website - GitHub

- Developed a responsive, eco-focused platform using **React.js (Vite)** and **TailwindCSS**, aimed at promoting sustainable living through guides, products, and educational content.
- Implemented key sections like **eco-living tips**, **climate change articles**, and **sustainable product suggestions** with a clean, mobile-first design.
- Set up a basic **CI/CD pipeline using Firebase Hosting**, enabling seamless deployment and version control for future updates.
- Focused on fast performance and modern UI/UX principles with **utility-first styling** and minimal layout using Tailwind.
- Project is currently in progress with planned features like **user dashboards** and a **community portal** for interactive engagement.
- Tech Stack Used: React.js, Tailwind CSS, Firebase (Cloud Firestore and Authentication for Login/Signup), Cloudinary for image storage, and Make.com for newsletter automation.

WordPress Website link

- Create a WordPress website and portfolio for Karolina Kobiałka.

ADDITIONAL STRENGTHS

- Strong foundation in **frontend technologies** including React.js, Tailwind CSS, and JavaScript ES6+
- Experience with **API integration**, real-time data handling, and state management using React Hooks and Context
- Proficient in **version control** using Git and GitHub; familiar with CI/CD and deployment using Firebase
- Practical understanding of **cloud services** such as Google Cloud Platform and Firebase Authentication
- Ability to design and build **responsive, mobile-first web applications** with clean UI/UX principles
- Certified in **C++ Advanced (IIT Bombay)**, **Google Cloud Skills Boost**, and **HackerRank SQL/CSS (Basic)**
- Excellent **problem-solving** abilities, demonstrated through hackathon achievements and project work
- Effective **team collaboration and communication**, with experience working across design and backend teams
- Quick learner with a **growth mindset**, always eager to explore new tools, frameworks, and best practices
- Organized and deadline-oriented, with strong **time management and planning** skills

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- 1st Team rank in Internal Hackathon 2022 organized by Hackathon cell (SVMIT).
- 2nd Team rank in Internal Hackathon 2023 organized by Hackathon cell (SVMIT).
- Hackathon volunteer of SVMIT, Bharuch for Student Start-up and innovation policy (SSIP).
- I have successfully completed GCCP (Google Career Practitioners Program 2022)
